

# DOUBLE DEUCE FARM IEA EQUESTRIAN TEAM

## Come and join our team!

Our team just completed another successful year, competing at National Finals, coming home with a 5<sup>th</sup> place finish! We are now accepting new team members for the 2010-2011 season! Double Deuce farm offers both an English Huntseat Team and Western Team. We are based out of Concord, Ohio and compete in region one of zone five.

The Interscholastic Equestrian Association (IEA) was founded in 2002 to provide and promote equestrian athletic competition among middle and high school students. Hunt seat riders compete in equitation over fences, and equitation on the flat, while western riders compete in horsemanship and reining. Riders may also cross over to compete in both disciplines. Horses are supplied by the host school/stable, and riders use a draw system to determine which horse they will ride, allowing the unique opportunity for a non horse owner to compete and show on a level playing field.

The I.E.A was set up to mirror the I.H.S.A format used at the college level, and to provide a feeder system for intercollegiate riding. I.E.A has grown to include 2,500 members and over 200 teams from across the United States. Teams compete in their respective regions to qualify for zones, and from there attempt to qualify for nationals.
